

CLAIMS

WEclaim:

- 5 1. A wound dressing comprising:
 a support strip of material having a body-attaching side; and
 also having adhesive being disposed about and upon said body
 attaching side;
 a pad member being securely attached upon said body-
10 attaching side of said support strip of material;
 at least one wound-healing agent being disposed upon said
 pad member; and
 protective strips of material being removably disposed over
 said body-attaching side including said pad member and said at
15 least one wound-healing agent.

- 20 2. A wound dressing as described in claim 1, wherein said
 support strip of material is made of flexible plastic and has a
 plurality of aerated openings being spaced about and being disposed
 through said support strip of material.

- 25 3. A wound dressing as described in claim 1, wherein said
 pad member is generally a gauze and is centrally attached upon said
 body-attaching side of said support strip of material.

4. A wound dressing as described in claim 3, wherein said at
 least one wound-healing agent includes a syrupy substance known
 as honey.

5. A wound dressing as described in claim 4, wherein said at least one wound-healing agent also includes a wound-sealing wax being disposed upon said gauze along with said honey.

5 6. A wound dressing as described in claim 5, wherein said protective strips of material are made of flexible fabric and have end portions which overlap one another when detachably attached to said support strip of material.
